Kelly can you hear us OK? How are you feeling?

Hello Dr. Patel I can hear you.

...

I feel... I feel kind of sleepy.

Yes that's to be expected. We've had you sedated for monitoring after your injection of LibidX. Please keep updating us on anything you experience.

Yes Dr. Patel understood.

Thirsty Kelly spotted a water dish and began lapping away at the refreshing liquid.

Soon the new product's effects began to kick in . . .

Kelly felt her pussy begin to swell and pulse with sensation.

All she could think about was breeding as she dripped onto the floor.

Oh fuck,
It feels so good . . .

I... I cant stop myself.

Dr. Patel, please. I don't want you to see me like this!

What's wrong with me?!

Am I really going
to cum with
everyone watching?

Thank You

Welcome to the world of DreamShaper-Pets (DSP)

Step into an alternate universe. In a dystopian future with rampant government and corporate corruption the DSP Corporation has become a world leader in the creation and mass production of human animal hybrids known as PetGirls®. Thanks to intense lobbying and deregulation the PetGirls® were classified as the property of DSP much like how genetically modified plant crops work in our world. This enabled the sale and ownership to the buying public, for better or for worst.

As public and private sector demand exploded for PetGirls® so did the DSP Corporations perverse power. This soon spawned the creation of several subsidiaries to facilitate their vision. Kennels, farms, labs and training centers were all created under the DSP umbrella to tailor PetGirls® to any client's specifications and needs.

The DSP universe is similar to ours in the fact that some people fight to change the system. The resistance has created a widely dynamic range of existences and conditions for PetGirls®. Pockets of communities can be found allowing them freedom and integration into general society. No matter where you stand on the ethical issues they were created one thing is seems for certain. Like it or not DSP and PetGirls® are here to stay.
